Rajiv Parida

Mumbai, Maharashtra, India Phone no : 9920192849

E-mail: rajivparida12@gmail.com

Objectives

To apply my knowledge in cybersecurity and frontend development to build secure, efficient, and visually appealing web applications. With expertise in HTML, CSS, JavaScript, and security protocols, I aim to contribute to projects that prioritize user experience and data protection, ensuring both functionality and safety.

Experience

Freelance Projects or Personal Projects

- Password Strength Checker: Developed a password strength checker using HTML, CSS, JavaScript, and Bootstrap to enhance cybersecurity awareness. Applied strong understanding of encryption algorithms to implement secure password validation.
- The **Keylogger Project** is a tool designed to capture and record keystrokes on a computer or mobile device. It operates in the background, tracking user inputs, such as passwords, text entries, and commands, and storing them for later retrieval. The project typically involves low-level programming, often using language is Python.

Cybersecurity Certifications

- Completed coursework covering network security, ethical hacking, vulnerability assessment, and incident response.
- Developed skills in penetration testing and threat analysis.

Cybersecurity Intern

IGNICIA Technologies Pvt. Ltd - Thane (East)

[1 March, 2024] - [7 Nov, 2024]

- Assisted in monitoring and analyzing security events using tools (Wireshark,Nmap) identifying potential threats and vulnerabilities.
- Used tools like **Wireshark** and **Nmap** for network traffic analysis and scanning, contributing to the identification of suspicious activities

Cybersecurity Hackathon/CTF Participant

• Participated in several cybersecurity capture-the-flag (CTF) events, solving challenges related to network security, cryptography, and penetration testing.

Education

 HK GIDWANI ENGLISH SCHOOL OF MULUND (SSC) (2017)

Marks: 71%

• BALASAHEB MHATRE COLLEGE OF BADLAPUR (HSC)

(2019)

Marks: 56%

• MULUND COLLEGE OF COMMERCE (BSC IT)

(2024)

Marks: 4.20

SKILLS

- **Programming Languages**: HTML, CSS, JavaScript, Bootstrap, SQL(basic), Python (basic)
- Cybersecurity Tools: Kali Linux, Wireshark, Metasploit, Burp Suite
- Networking: TCP/IP, Firewalls, VPNs, DNS, and DHCP
- Web Development: Frontend development with a focus on secure coding practices
- Operating Systems: Linux, Windows
- Other Skills: Ethical hacking, Threat Analysis, Incident Response, Password Security

HOBBIES

- Swimming
- Listening to music
- Cooking
